

Together Again

I feel happy to write a song with my friends
Cuz we're all gonna be together again
Gonna see everybody, it's been a long time
We're making a song, and we're making it rhyme
I like to dance, and have some fun
Party like a rockstar 'til the night is done

I know the place, and I know when
We're all gonna get together again
We're all gonna get together again

Three years ago, the world took a turn
We all had a lot of lessons to learn
We stayed inside and it wasn't fun
Zooming around, didn't see anyone.
I like dancing and singing our songs
We gotta get together, man, it's been too long
Going out late, with my friends

We're all gonna get together again
We're all gonna get together again
We're all gonna get together again
(yeah)
We're all gonna get together again
(alright)

Together again

Together again

I don't know about you, but it's been too long

I feel real good, singing this song

On the mountains, and on the beach

There's no place now, that's out of reach

How we gonna get there? I don't care!

All that matters is where all here.

I know the place, and I know when

We're all gonna get together again

We're all gonna get together again

We're all gonna get together again

We're all gonna get together again

We're all gonna get together again

We're all gonna get together again

We're all gonna get together again

We're all gonna get together again
