

## **Try Everything**

*Words and music by Mark Cutler and the Leadership Series Class of 2025*

Keep singing your song, don't beat yourself up

Dance all night long, and get yourself strong

Move all around, but stand your ground

Get a fire in your soul, keep yourself whole

There's so many things in this world to enjoy

Try Everything, there's more to explore

Make a clean slate, get a fresh start

Rise above doubt, tune it all out

CHORUS	<b>Try Everything, Try Everything</b>
	<b>There's more to explore, open new doors</b>
	<b>Try Everything, Try Everything</b>
	<b>There's so many things in this world to enjoy</b>

Get out of the house, change up the scene

Got for a walk, Try a new thing

Get some fresh air, get your blood flowin'

Don't matter where, as long as you're goin'

Stretch out your soul, get new ideas

Open your eyes, and open your ears

Try something that you'd never try

Sing a new song, reach for the sky

CHORUS

Try Everything, Try Everything

There's more to explore, open new doors

Try Everything, Try Everything

There's so many things in this world to enjoy

Take a leap of faith, get some motivation

There's no time to waste, and reach your destination

CHORUS

Try Everything, Try Everything

There's more to explore, open new doors

Try Everything, Try Everything

There's so many things in this world to enjoy

CHORUS

Try Everything, Try Everything

There's more to explore, open new doors

Try Everything, Try Everything

There's so many things in this world to enjoy
