SUPPORTED DECISION MAKING

Presented by Representatives from Disability Rights RI, the Cross Disability Coalition & Advocates in Action RI

In this session we'll be using a variety of Resource Materials to tell you about something called "Supported Decision Making" (SDM).

SDM is an alternative to guardianship, which our General Assembly made into Legislation earlier this year (2019).

This exciting news means that Rhode Islanders who have historically have been on a pathway to having a Guardian will now have the option to use SDM instead.
